“It is always a valuable experience for our students to participate in such a large and significant competition like Scholastic Art & Writing Awards. These awards, as well as seeing their art hanging in a professional show with hundreds of people in attendance, validate their hard work and countless hours spent in the studio.” states Todd Poteet, Director of Visual Arts at The Art Effect, “For some, it means scholarships to college, a pathway to success, or an opportunity to express their voice, but for all, what I see is The Art Effect.”

The Art Effect’s Art Institute inspires and motivates students, preparing them for successful careers in the visual and media arts. The Art Institute offers local youth opportunities to build collegial and community service connections. Students participate in the Art Institute’s National Art Honor Society; attend the Hudson Valley Regional Portfolio Day to meet with college representatives; host, curate, and display their work in public exhibitions; participate in national art competitions, and work with local organizations to create commissioned projects in public spaces.

About The Art Effect: Formerly Mill Street Loft + Spark Media Project, The Art Effect empowers youth in the Hudson Valley through the arts and media. Our programming sequence supports the personal and professional development of youth and provides them with the tools and support necessary to explore the arts, gain meaningful experiences, and eventually excel in their chosen tracks. It is our commitment to support personal growth, self-expression, cooperation, and enhanced human services to build the creative community of the Hudson Valley.
